The purchase of an aboveground pool provides years of pleasure and fun, but it also involves water safety. Although Zodiac cannot supply a full-time lifeguard, we strongly recommend that you implement the following safety rules. These will help provide a pleasant atmosphere for you and your family.

- NEVER jump or dive in an aboveground pool.
 - Maintain constant adult supervision when children are in or near any body of water.
 - Read all of the safety, installation and maintenance information contained in the Zodiac instruction manual and water safety brochure before you start installing your pool.
 - Ask your city about any specific rules and regulations that apply to aboveground pools.
 - Follow the Zodiac instruction manual and maintenance instructions.
 - Never remove applied or posted safety stickers or signs from your pool or pool area.
 - Barriers to prevent unsupervised access, especially by young children, should be built, installed and checked on a regular basis to ensure they are in good working order.
- Inspect your Zodiac pool, barriers, alarms, and other related equipment on a regular basis in order to ensure they are in good working order and that they are safe.
- Zodiac installation, maintenance and safety manuals contain detailed tips and recommendations. They must be read, followed and applied on a regular basis, as they will prevent unnecessary accidents and will ensure many summers of pleasant and safe family fun.

Terra/Coral wall ∴∴

Wall height: Terra 48" (1.22 m)/Coral 52" (1.32 m)
 The wall is protected by a polyenamel finish that increases resistance against corrosion.

∴∴ powerful lateral supports on our oval models

- Highly developed structural support
- Installed every 30 3/4" for more strength on straight sides
- Reinforcements add vertical strength where water pressure is strongest

∴ strength for premium durability!

The Alias's steel structure is entirely protected by a combination of finishes. These optimize its resistance to corrosion while preventing condensation between the liner and the wall – ensuring a long, solid life for your pool.

∴ structure

- 6-inch top ledge
- Ledge cover made from Synpro™ resin
- Rounded corners and a design that hides screws
- Never chips or discolors
- 5-inch fully supportive upright

∴ Vog-lok™ system

- Pre-drilled parts to make screw installation easy
- Screws lock in place to maintain structural integrity
- Concept exclusive to Zodiac

∴ corrugation

- A rippled finish lets the wall resist both water pressure and external shocks

∴ wall joint

- Computer-designed wall joint ensures better resistance to water pressure
- Wall reinforced with two large steel bars
- Oversized bolts augment stability
